the best that your money will buy, because it's economy to get the best.

WE SELL

the best—at same prices that some stores ask for poor qualities.

A special rebate is allowed for CASH.

GRUBBS & HAZELRIGG.

Water Works.

ORDINANCE providing for a supply of water to the city of Mt. Sterling, county of Montgomery, State of Kentucky, and to its inhabitants, contracting with J. M. Roche and others, to be organized according to law into and known by the name of the Mt. Sterling Water Company, their associates, successors and assigns, for a supply of water for public use, and giving the said city of Mt. Sterling an option to purchase the said works.

IT IS ORDAINED by the Mayor and Common Council of the said City of Mt. Sterling:

Section 1. That in consideration of purchase of the Franchise as advertised by ordinance of September 7, bearing date of sale October 1, and as required by Section 104 of the Constitution, all of which have been complied with, and of the benefits to be derived therefrom, the rights and privileges are granted for a period of twenty years from this date, as herein provided, unto the Mt. Sterling Water Co., their associates, successors and assigns, of erecting, maintaining and using a system of water works in accordance with the terms and provisions of this ordinance, and of using streets, alleys, public squares and other public places within the corporate limits of said city of Mt. Sterling, for the laying of pipes, mains and conduits, such as services, etc., and for making repairs and extensions to the said system of water works during the period of this ordinance shall be in

the said Mt. Sterling Water Co., their associates, successors or assigns, the greatest interference with any or sewers which may be abandoned by the city of Mt. Sterling.

The said Mt. Sterling Water Co., their associates, successors or assigns, shall be held responsible to provide

against danger to life and limb by reason of the exercise of the rights and privileges hereby granted, and shall cause all excavations and obstructions to be properly lighted and guarded at night; and after the completion of the purposes for which the said streets, alleys, public squares and other public places may be used, they shall be restored to their former condition as nearly as possible, allowing reasonable time for trenches to settle.

The said Mt. Sterling Water Co., their associates, successors or assigns, hereby agree to hold the said city of Mt. Sterling harmless from any liability which may result to it by reason of any violation of this section.

Sec. 3. The general plan of the said system of water works shall be as follows:

WATER MAINS.

There shall not be less than 5½ miles of cast iron, tar-coated water mains laid within the city limits of Mt. Sterling, of sizes from 4 inch to 12 inch pipes.

HYDRANTS.

There shall be eighty (80) double nozzle fire hydrants of first-class approved pattern, with two and one-half inch standard thread outlet, of same coupling as Lexington or Winchester are now provided with, as the committee may select.

VALVES.

There shall be a sufficient number of gate valves to enable the Water Co. to properly manage the water works system for the benefit of the water consumers, and that in case of an ex-

Royal makes the food pure, wholesome and delicious.

ROYAL BAKING POWDER CO., NEW YORK.

Celebrated for its great leavening strength and healthfulness. Assures the food against all forms of adulteration common to the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK.

tainable at either source.

Sec. 4. In consideration of the public benefits and the protection of property resulting from the construction of the said system of water works, the said city of Mt. Sterling hereby rents of the Mt. Sterling Water Co., associates, successors or assigns, eighty (80) double nozzle fire hydrants, as named heretofore, for the aforesaid period of twenty (20) years, at an annual rental of forty-five hundred (\$4,500.00) dollars per annum, payable in quarterly installments on the first day of March, June, September and December of each year. And the city hydrants to be located by an authorized or proper Committee of Council; and the city of Mt. Sterling agrees to pay to the said Mt. Sterling Water Co. fifty (\$50.00) dollars for each plug in excess of said eighty in the same manner as provided for the original eighty plugs during the unexpired period of the contract.

Water shall be used from the said hydrants only for the extinguishment of fires and necessary fire practice and for the flushing of gutters and sewers as they now exist, or as they may hereafter be built; provided that for fire practice and flushing of sewers and gutters not more than two (2) hydrants with two nozzles shall be opened at one time, and not more than three (3) times in any one week, for not more than one and one-half hours each time, then not till reasonable notice shall have been served on Water Co., so as to provide against such loss of water and so as not to impair the service for fire protection.

Sec. 5. Water shall be furnished free during this contract to the public schools and all other public, city buildings or part of other buildings while in use for city purposes; also for three (3) drinking fountains with openings for man and beast, said fountains to have automatic valves and self-closing faucets, and be approved by Water Co., so as to prevent waste of water; also to one ornamental fountain through a three-sixteenth (3-16th) jet, to be used not longer than six (6) hours any day

during the summer months, provided no water shall be taken therefrom for private uses.

The city agrees to furnish and set up all of these fountains and provide all the pipes and fixtures thereto; the Water Co. to be required only to supply the water free of cost.

Sec. 6. Upon the completion of the construction of the said system of water works, the said Mt. Sterling Water Co., their associates, successors or assigns, shall notify the said Mayor and Council of said city to that effect, and thereupon submit the works to such a test as will show the capacity of the works to be sufficient to throw four (4) fire streams through fifty (50) feet of two and one-half inch hose with one and one-eighth nozzle attached, from four different hydrants (at or around the Court-house square) seventy-five (75) feet high. Upon the satisfactory performance of this test the said Mayor and Council of said city shall, by ordinance or resolution, formally accept such system as constructed in accordance with the terms of this ordinance. The test shall be a stand-pipe test, and not from direct pressure.

Sec. 7. The construction of said system shall be commenced within sixty (60) days after a legal contract shall have been made with the city of Mt. Sterling, and shall be completed within one year from date of said legal contract; provided, however, that the time during which the said Mt. Sterling Water Co., their associates, successors or assigns, are delayed by floods or acts of any of the ele-

assed by said Mt. Sterling Water Company, their associates, successors or assigns; provided, however, the said city of Mt. Sterling shall notify the said Water Company, their associates, successors or assigns of its intention to do so at least one year before the expiration of the said period of three years, or one year before any arbitration thereafter.

In the event named in the foregoing the said Mt. Sterling Water Company, their associates, successors or assigns, and the City of Mt. Sterling shall each appoint one person and the two in case of disagreement a third person all non-residents of the State, to constitute a Board to determine the value of said Water Plant at said time, and shall consider all the facts of cost connected therewith, and reasonable appreciation by reason of increase of water consumers from that date, and said Board shall report same to Council and Water Company.

The said City of Mt. Sterling within sixty days after the report of said Board has rendered its decision, shall pay the amount so delivered in cash. The property and franchise of said Water Company shall be exempt from all city taxes for the term of five years, from the completion and acceptance of said works.

Sec. 10. The said Mt. Sterling Water Company, their associates, successors or assigns shall make extension to their line of mains whenever called upon to do so by the said City of Mt. Sterling; provided, however, that the City of Mt. Sterling shall for every 300 feet of said extension pay for a fire hydrant at the rate of \$50 per annum, payable quarterly, the hydrant to be put at such place as the City Council may direct, but the said Water Company may make such extension from time to time as they may deem necessary.

Sec. 11. After the works are put in operation, if at any time the pressure gauge which shall be located at or near the public square, should indicate a pressure of less than forty (40) pounds on the water mains adjacent thereto, for the period of four weeks in succession, then the rental for the hydrants aforesaid, shall cease until the standard of pressure shall be again obtained; provided, however, if the pressure indicated as aforesaid, should be less than forty (40) pounds for four calendar months in succession then all the rights and privileges of the said Mt. Sterling Water Company, their associates, successors or assigns acquired by virtue of the ordinance shall be void. But nothing herein contained shall be so construed as to prevent the said Mt. Sterling Water Company, their associates, successors or assigns, from temporarily shutting off the water from its system or any portion thereof, for the purpose of making repairs, or extensions to same, and no liability shall attach to the said Mt. Sterling Water Co., their associates, successors or assigns, for the suspension of the supply of water; provided, the repairs or extension are made and the water turned on again without unnecessary delay. And, provided, also that they shall not be held liable for an inadequate supply of water caused by any very unusual drought or any other extraordinary call beyond their control.

Sec. 12. It is hereby further ordained, That the Mt. Sterling Water Co., their associates, successors or assigns, may charge and collect the following rates for water furnished to private consumers, and shall have exclusive control of service pipes from mains to curb stone or wherever stop box or meter may be placed:

No water will be supplied to any person or for any purpose for less than (\$10) dollars per year. And the following schedule of rates are based on an excess in aggregate of that amount being used:

DWELLING HOUSES—ONE FAMILY.

First faucet.....	\$ 6 00
Each additional faucet.....	2 00
One bath tub.....	5 00
Each additional tub.....	3 00
One water closet.....	5 00
Each additional closet.....	3 00
Each self-closing urinal.....	3 00
One wash basin.....	5 00
Each additional basin.....	3 00
One set wash tubs.....	3 00
One hydrant, no hose.....	6 00
One hydrant with hose under rules.....	12 00

The bath tub, wash stand and wash tubs enumerated above include two faucets, one each for hot and cold water.

Dwelling houses occupied by more than one family. Each family having separate fixtures, shall be the same as living in separate house.

Each additional family not having separate fixtures and using same fixtures, shall be assessed one-half extra of schedule fixed for that house.

For hotels, boarding houses and lodging houses. In addition to rates for families there will be charged for each bed for boarders and lodgers.....\$ 1 50

For closets, tubs and wash stands in public places, where use can be had by the public,..... 10 00

For confectionaries, restaurants, markets, provision, drug and liquor stores, bars, oyster saloons, according to water used, from \$10.00 to 50 00

For stores, warehouses, offices and shops for use of occupants therein, and requiring no more than an ordinary supply of water; for the same fixtures, the same price as for dwelling houses.

Private stable, one horse.....	4 00
Each additional horse.....	2 00
Hotel, boarding, feed and livery stable, each single stall.....	2 00
Each carriage or buggy.....	1 50

MISCELLANEOUS.

Barber shops, one chair.....	6 00
Barber shops, each additional chair.....	3 00
Smith shop, one fire.....	5 00
Smith shop, each additional fire.....	2 00
Printing offices, bakeries, tobacco factories, photograph galleries, book binderies, (engines not included) from \$10.00 to 25 00	

BUILDING PURPOSES.

Brick, per 1,000.....	10
Stone, per perch.....	05
Plastering, per 100 yds.....	30
Each barrel of lime or cement.....	09

SPRINKLING.

Hydrants for sprinkling with hose shall have no nozzle larger than three-eighth inch, and shall be limited to three hours per day from 1st of May to October 1st, and to following hours: 7 to 8 a. m., 12 to 1 afternoon, and 6 to 7 evening, and not outside of those hours, and shall sprinkle only in front of consumer's residence or store and only one-half of street, and use of hose for any other purpose than specified will not be allowed except by special permit.

For purposes not named in the above schedule, or amended in any way, and for peculiar circumstances, special assessment or contracts will be made. The Water Company, its associates, successors or assigns, reserve the right to put in water meter in any consumer's place, instead of being governed by the above schedule, and when the same is done then no greater charges than the following can be made for measured water:

1,000 to 10,000 gal. per month per 1,000.....	\$ 35
10,000 to 30,000 gal. per month per 1,000.....	33
30,000 to 50,000 gal. per month per 1,000.....	30
50,000 to 100,000 gal. per month per 1,000.....	27
100,000 to 200,000 gallons per month, per 1,000.....	25
200,000 to 300,000 gallons per month, per 1,000.....	20
300,000 to 500,000 gallons per month, per 1,000.....	15
500,000 to 600,000 gallons per month, per 1,000.....	13
600,000 to 700,000 gallons per month, per 1,000.....	12
700,000 to 800,000 gallons per month, per 1,000.....	11
800,000 to 1,000,000 gallons per month, per 1,000.....	10

No continuous flow of water will be permitted for watering troughs, or any fixtures, for repair to said fixtures or for protection against frost unless by permit or meter attached and in no case where meter is used shall the yearly water rate be less than \$15 and the above schedule of rates are yearly rates and no rate shall be made less than one year except by permit.

ADAM BAUM, Mayor.

THOS. D. JONES, City Clerk.

October 5, 1897.

Notice.

Whereas, an ordinance has been adopted by this Council providing for supplying the city with water for the extinguishing of fires and for other purposes for the period of 20 years which incurs an indebtedness which can not be met without exceeding the revenue provided for the city for this fiscal year. The qualified electors of this city will take notice that an election will be held at the regular voting places in this city on Tuesday Nov., 2nd, 1897, during regular election hours to determine whether an indebtedness of forty-five hundred dollars per annum for twenty years shall be incurred for the purpose of furnishing water to the city for extinguishing fires and other public purposes. ADAM BAUM, Mayor, THOS. D. JONES, Clerk. Oct. 5, '97.
